The image features four glowing, dome-shaped objects arranged in a square pattern on a dark, reflective surface. Each object has a different color: a blue one on the left, a yellow one at the top, a red one on the right, and a green one at the bottom. The objects appear to be made of a translucent material with a bright, ethereal light emanating from within. A central yellow label with a white border and black text is positioned in the middle of the arrangement.

**THE CONCEPT**

# A QUIZ GAME WITH ROOMS WORTHY OF A REAL TV SHOW

I-QUIZ is a real-life quiz, inspired by TV gameshows.

With the **family**, among **friends** or with your **work colleagues**, get your fingers on the buzzers as if you were on a gameshow for **9 successive rounds** (each with its own rules) and a whole host of topics: **blind test, cinema, sport, video game, history, sciences, TV series, society, literature, cartoons, etc.**

All hosted by **Quizy**, our **interactive host**, who will entertain you throughout the game.

# FULLY FITTED QUIZ ROOMS JUST LIKE ON TV

Just like TV gameshows such as “Who wants to be a millionaire?”, “The weakest link”, “Going for gold” or “Blockbusters”, our quiz rooms are designed to allow you to enjoy a unique and **fully immersive experience**.

Our rooms are fitted out with **6 rostrums** (suitable for 1 or 2 players) with 4 light buzzers and a **sound, video and lighting system** adaptable to your own customisable layout for an **atmosphere worthy of a genuine TV show**.

## Single or dual-player session

Our quiz rostrums are designed to host **1 or 2 players**. And so, depending on the number of players, you can play **alone or as a team**.

For a group of between 3 to 6 players, each participant will be given an individual rostrum to face the other players.

For a group of between 7 to 12 players, participants will be divided up into teams of 2.

# QUIZY, YOUR INTERACTIVE HOST WHO **DOESN'T FAIL TO ENTERTAIN**

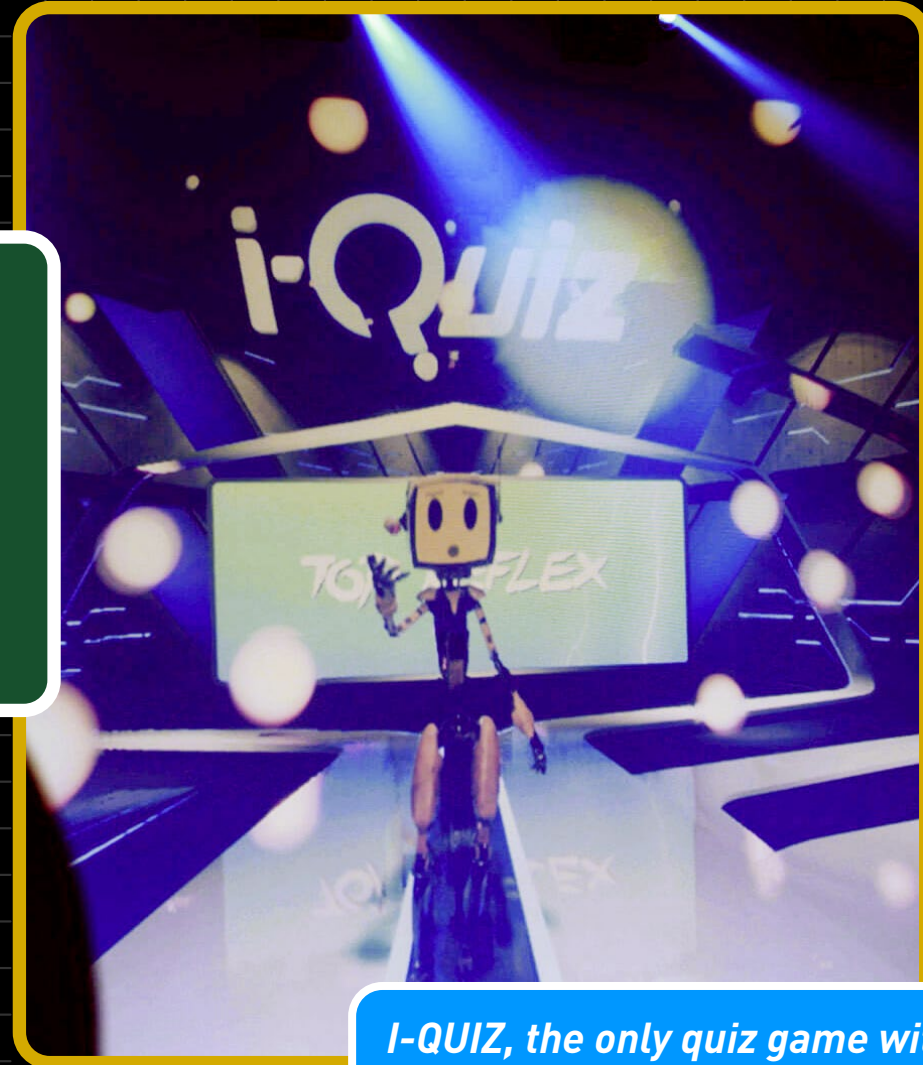

What would a TV gameshow be without the **star host**?

When we talk about "Blockbusters", you think of...Bob Holness.  
"The weakest link"? Anne Robinson. "Going for gold"? Henry Kelly.  
"Who wants to be a millionaire"? Chris Tarrant.

There isn't a single TV gameshow in the world without a star host.  
A gameshow without a host is like a chocolate cake without  
chocolate. It simply wouldn't be the same.

**Quizy will host your session from start to finish.** From the moment  
you settle down in the quiz room to announcement of the winner,  
Quizy will be by your side... and is **sure to entertain!**

*I-QUIZ, the only quiz game with  
a real interactive host!*

# 9 ROUNDS AND A HOST OF TOPICS

9 ROUNDS

Our Quiz Game includes **up to 9 rounds, each with its own rules.**

The tension builds as the game progresses.

**Standing Start!** Let's ease in gently. You get points for each correct answer. Otherwise... no point.

**Sprint Round!** The quicker you answer, the more points you score.

**Five Alive!** The first team to answer 5 questions correctly wins the most points.

**Casino!** You think you're in luck? Now's the time to find out. Before each question, buzz to stop the wheel and discover the amount of points to win in case of correct answer.

**Reflex!** Only the first 3 teams to answer each question correctly will score points.

**Sharing!** The first team to answer correctly decides who they want to share with the points earned.

**Multiplier!** Each correct answer allows you to multiply your points. If you get 2 correct answers in a row, your points will be doubled... 3 in a row, your points will be trebled.

**Hold Up!** The first team to answer correctly can steal points from the team of their choice.

**Double or nothing!** Before each question, you'll be given the topic and you can decide to stake more or less points. If you give a correct answer, you win the number of points staked. But, if you don't answer correctly, you will lose them.

## TOPICS AND QUESTIONS

Topics are **varied and accessible** to everyone: **music, cinema, sport, video game, history, sciences, TV series, society, literature, cartoons, etc.**

Questions are asked in different formats to keep you on your toes. There are **pictures, blind tests and videos.** They don't all require expert knowledge. Often a little common sense, observation skills or memory retention is required.

At the start of each round, the team who has the lowest overall points total will have to choose between 4 multiple choice questionnaires. After all, they need a little help.

The image features four glass lenses, each mounted in a black frame, arranged in a diamond pattern on a dark, reflective surface. The lenses are colored blue, yellow, red, and green. A central yellow banner with a white border contains the text "OPTIMISED EXPLOITATION".
